

Funding Conference Participation of PhD-students through the doctoral student representatives at the Faculty of Social Sciences, University of Vienna

The student representatives for doctoral students at the Faculty of Social Sciences at the University of Vienna provide funding for the participation of PhD-students in scientific conferences. Particularly those PhD-students are supported who are not employed at the university and whose travel costs are not refunded through the so-called global budgets of the university, project funding or external funding.

4. Request Processing:

Responsibility for the processing of grant applications and funding decisions lies with the doctoral student representatives of the Faculty of Social Sciences. Decisions on the allocation of funds are made in a committee meeting and need to be based on consensus. Any changes of the terms are made the same way. Committee meetings that deal with the allocation of funding take place once a semester. Meetings are cancelled if the available budget has already been exhausted or no applications have been received. Allocated funds depend on the overall amount of applications received. Expenses and conference duration are also taken into account in the decision-making process.

If funding is requested for a conference taking place in the future, funds can only be allocated after proof of conference attendance has been submitted. Decisions are communicated to applicants via e-mail.
